NextGen Trades Academy

The Nextgen Trades Academy trains underserved youth in construction fields like roofing, solar, general contracting and more. The program also offers vital life skills such as interview practice, resumé building financial literacy as well as stress management. Graduates earn safety certifications and receive 18 months of mentorship and career counseling.

Empowerment • Diversity
Community • Inclusivity • Life-Changing

"Before this class I felt like I didn't have a future and now I know what I want to do and that I can be successful."
